Use the following rating scale to check the appropriate box:

	Strongly Agree (5)	Agree (4)	Neutral (3)	Disagree (2)	Strongly Disagree (1)	NA
Course Content and Objectives						
The content of this course related to the learning objectives.						
As a result of this course, I can summarize the most recent national and local suicide death rates and trends.						
As a result of this course, I can summarize suicide prevention best practices, trainings and resources including the Zero Suicide framework.						
As a result of this course, I can describe the emerging research base for group therapy as an effective intervention for youth at risk for suicide.						
As a result of this course, I can summarize how a rural community took a resilient approach to meeting the needs of youth at risk for suicide with limited access to resources.						
As a result of this course, I can recognize the need to adapt evidence-based practices to meet the specific needs of a community.						
As a result of this course, I can identify that suicide is a multifactorial event and name 5 often comorbid risk factors including chronic toxic/traumatic stress.						
As a result of this course, I can describe the connections between chronic trauma exposure and other mental health conditions including depression, anxiety and suicide.						
As a result of this course, I can discuss the traumatic experience of suicide exposure.						
As a result of this course, I can describe how first responders, medical professionals and stakeholders are shifting from reparative care to preventative care to curb the trend of epidemic gun violence.						
As a result of this course, I can recognize the importance of Counseling on Access to Lethal Means.						

	Strongly Agree (5)	Agree (4)	Neutral (3)	Disagree (2)	Strongly Disagree (1)	NA
As a result of this course I can list three practices that helped palliative care physicians maintain balance in spite of the intensity of working with patients for whom the possibility of death was real and present.						
The course content and objectives were appropriate to my education, experience and licensure level.						
This course was relevant to my professional practice and currency of information.
